Experience: Unilever, working in the North America Personal Care Division.
Expertise: R&D Packaging, Supply Chain Planning and Innovation Brand Management.

What is AeroFlexx Pack? Not a Bottle, Not a Pouch

A person wearing a blue jacket and jeans is standing next to a large blue recycling bin. The bin is open, and the person is placing a red can into it. The bin is filled with various recyclable items, including cardboard boxes and paper. The background shows a brick wall and a wooden door. The word "RECYCLE" is overlaid in large white letters.

RECYCLE

Recycling Bins

How do you recycle with AeroFlexx?

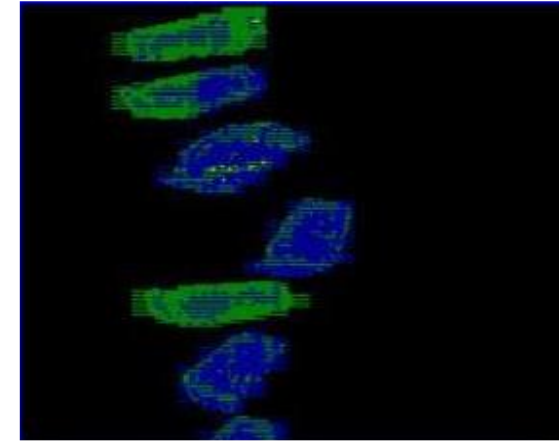

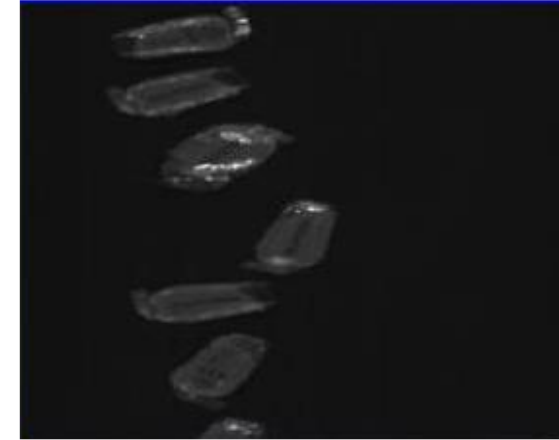

AeroFlexx is curbside recyclable

Sortation proven out at running MRF at scale

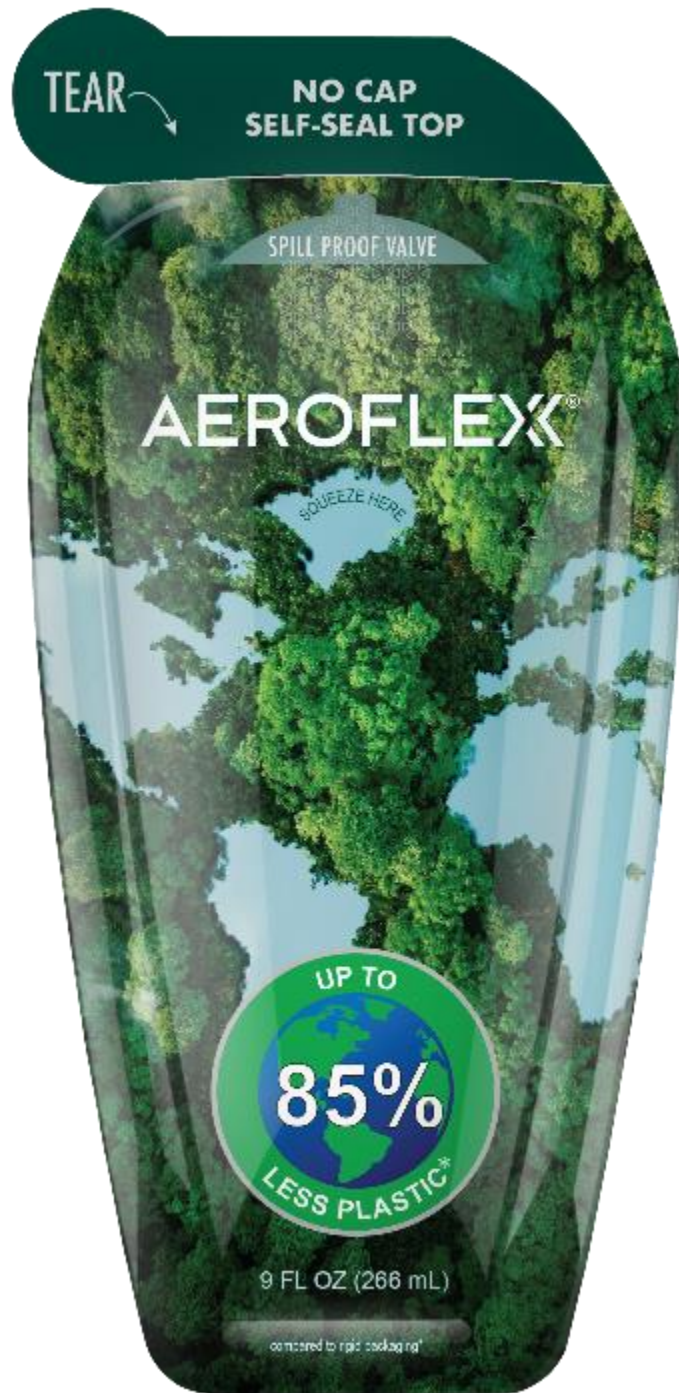

Sorts like 3D object even if air frame is compromised

NIR sorts AFX pak to HDPE bale

A close-up photograph of a hand holding a large quantity of small, multi-colored plastic fragments, likely microplastics. The fragments are in various colors including blue, green, yellow, red, and white. The hand is positioned at the top right, and the debris is being held over a light-colored, textured surface. The word "REUSE" is overlaid in large white letters across the center of the image.

REUSE

A yellow Caterpillar bulldozer is shown from a low angle, pushing a massive pile of garbage. The trash is a chaotic mix of brown, grey, and colorful debris, including plastic bags and crumpled paper. The bulldozer's tracks and front blade are visible as it works on the waste. The sky above is blue with scattered white clouds. The word "REDUCE" is superimposed in large white letters across the middle of the image.

REDUCE

By adopting AeroFlexx, you can help save:

981 million

Pounds of waste

65 million

Gallons of gas

257 million

Pounds of CO2 emissions

599 million

Kilowatt-hours (kWh) of energy

**Based on 2.5 billion product units of AeroFlexx packaging projected over the next five years.*

SOURCE REDUCTION

Using up to 85% less plastic versus rigid bottle/cap alternatives

REFUSE

Eliminate Superfluous Plastic!

250 ml Aeroflexx: 11 grams **total**
500 ml Aeroflexx: 14 grams **total**

Traditional Fitments and Dispensers

Why use all this plastic?

AeroFlexx Recyclable Pak

Integrated Valve

Eliminates need for discrete closures and enhances consumer use experience

Proprietary Air Frame Provides structural rigidity throughout entire package lifecycle

We use air!

(Yes, the air we all breathe)

Ground Floor
